## PROJECTS

### Student Portal (11/2020 - 02/2021)

- This was my BSc final year project which was developed by me and my friend.
- The project was mainly focused on solving the problem which most students face in their college regarding books. With this portal, students can buy or sell their old books easily.
- Technology used : Php, Html, Css, Javascript, Xaamp Vscode.

### E-Commerce Website (10/2021 - 12/2021)

- This project was developed after I have completed my Django course.
- And with all the skills that I had learned from the course used them and developed this project.
- The project has been completed successfully and the code has been uploaded to my GitHub.
- Technology used: Django, Html, Css, Javascript, jquery.
